Secretary to the Government of Mysore,
Revenue ~~Secretary~~ Department, Bangalore.

Sir,

I have the honor to enclose herein copy of letter No. C. 139 M.I. dated the 21st February 1921 from the Deputy Commissioner and Chairman, Malnad Improvement Committee communicating the decision of the Committee in the matter of supplying the District Health Officer with certain articles at an initial cost of ₹550/- with a recurring expenditure of a sum of ₹10/- per mensum for fitting up a laboratory under the District Health Officer. I request you to be so good as to obtain the sanction of Government to the purchase of the articles proposed the cost being debited to the Malnad Improvement grant. The incidental expenses for the transmission of samples for analysis from time to time will be borne by the local bodies concerned.

2. It is hardly necessary to add that the importance of infusing a scientific interest to the routine work of a Health Officer in the Malnad, by means of a carefully equipped laboratory cannot be over-rated.

I have the honor to be,
Sir,
Your most obedient servant.

Enclosure No. One

Requesting sanction
to the proposal of fitting up a
laboratory for the use of the
District Health Officer, Shimoga.

Letter No. 139 M.L. dated the 21st February 1921 from the Deputy Commissioner and Chairman Malnad Improvement Committee, Shimoga to the Sanitary Commissioner in Mysore Bangalore.

6

I have the honor to state that the District Health Officer, Shimoga placed before the Malnad Improvement Committee at their meeting held on the 22nd January 1921, the subject of supplying him certain articles required for fitting up a laboratory for analytical purposes, Chemical and Bacteriological. Samples of water &c., are now sent to Bangalore ~~for~~ chemical examination. This procedure necessarily causes delay and involves extra cost. Besides in many instances the results are said to be vitiated on account of transit. His proposal involves an initial expenditure of about ₹550/- as detailed in the margin for the purchase of the articles required and the grant of ₹10/- per month on account of contingent charges. The question was care fully discussed by the Committee and they resolved that the proposal "may be sanctioned".

1. Incubator (small size)	₹350/-
2. Auto Clave one	" 120/-
3. Primus stone and other accessories.	" 30/-
4. Glass ware such as, test tubes, petry dishes decanters &c.	" 50/- (Lumpsum)
Total	₹550/-

It is learnt that the District Health Officers at Bangalore Mysore and Kolar Gold Fields have been supplied with a set of these articles.. It therefore seems necessary that there should be one in this Malnad District where there is much scope for research work in connection with Malaria and other diseases peculiar to the Malnad. The sum of ₹550/- referred to above will be made available out of the current year's budget allotment under the head "Miscellaneous" and the contingent amount may be borne by the local bodies.

2. I request you will be so good as to obtain sanction of Government to the recommendation made above so that the articles may be purchased out of the current year's
